

Ares Pricing

Software License Fee

The Ares software is licensed as an annual subscription with pricing based on the Full Time Enrollment (FTE) of your institution. The annual Ares Software License Fee includes the use of Ares, all updates and new releases during the license period and unlimited telephone and email support.

Community College licensees should use 1/2 of their FTE to determine pricing tier.

Ares Pricing Tiers	FTE
Tier 1	< 3,000
Tier 2	3,000 - 12,000
Tier 3	> 12,000

Base Fees	Price		
		List Price	NYLINK Member Price
Ares Software License Fee <i>Current OCLC ILLiad Users receive an additional 5% discount .</i>	Tier 1	\$4,800	\$4,320
	Tier 2	\$6,000	\$5,400
	Tier 3	\$8,000	\$7,200
	K-12 Institutions		\$4,800/year (includes hosting)
Initial Implementation Fee	\$2,000 for all tiers		
Optional Services			
Advanced Project Implementation Fee	\$2,000 in addition to initial implementation fee		
Annual Server Hosting Fee (including 5GB of drive space for E-Reserve materials) <i>Current OCLC ILLiad Users receive an additional 5% discount.</i>	All Tiers	\$5,000	\$4,500

Implementation Fee

The Initial Implementation Fee includes remote installation of Ares software on your local server, four hours of remote web-based training, and an additional four hours of remote web-based sessions to answer questions and help configure the system.

Optional Ares Services

Advanced Project Implementation

At any time during the implementation, you can choose 8 more hours of on-site assistance to help configure the system for your site, including editing web pages, print templates, email templates, and setting policies.

Hardware and Software Hosting Service

If you choose not to install Ares on your local server (Ares can easily be installed on the same server as your locally installed OCLC ILLiad software), you can choose Atlas' hosted server services. With server hosting, hardware and software are maintained, backed up, and supported by Atlas staff.

Additional Hosted Hard Drive Space

If your Ares installation is hosted by Atlas, additional 20GB blocks of storage space may be added at any time during the contract period at a prorated amount of \$100/month (\$1,200/year).
